(b) Does not arise in view of (a) above.

(c) to (e) Universal Service Obligation Fund (USOF) is providing support for Rural Direct Exchange Lines (RDELs) in commercially unviable areas. So far 11.13 lakh DELs have been provided under this scheme and another 6.5 lakh are expected to be provided by March, 2007. Further, Government is in the process of taking necessary action to provide support for provision of infrastructure for mobile services in rural and remote areas of the country. A draft tender document for setting up and managing infrastructure sites and provision of mobile services in rural and remote areas of the country has been placed on the Department of Telecommunications website www.dot.gov.in on 21.11.2006 for inviting comments/suggestions from stakeholders.

As per targets fixed in New Telecom Policy, 1999 (NTP-99), Rural Tele-density of 4% was envisaged by 2010. This target is likely to be achieved much ahead of schedule. Government not restricting itself to above target, is also making efforts to provide one telephone connection per three households and one connection per two households in rural areas by 2007 and 2010 respectively.

Projects forwarded to NEC from States

910. SHRI MATILAL SARKAR: Will the Minister of DEVELOPMENT OF NORTH EASTERN REGION be pleased to state:
